
Worm Growers Resources page

Posted by redhen - 2005/11/29 08:58

I think it would be of great value to all here, if WD would have a Worm Growers Resource page. My business, for instance, is listed on NC State University's "NC Resources" page , Mecklinburg County's, a page in Canada, and a few others. This list would not endorse any site, but be a place for people to peruse, for growers local to them and a place for businesses to be visible. The list might not only be for the US, but worldwide as well.

Hi,
I agree with RedHen about a worm growers source page.
I am on a few message groups and I would love to send people to this website to find growers in their areas.
The list could be listed by state naming grower any addresses, websites and phone numbers they want publicize, types of worms they sell and other products they sell. This would be a resource for people looking for growers, research etc.
Have a Great Holiday and Best New Year to come.
MaryKay

Maureen had mentioned that this type of page had been approved by the board. I was just wondering if it was still in the works. Thanks WD for an update.

Hi Red Hen!

I heard the resource page is to get started
BY FEBRUARY 2ND!!! Groundhog's Day!
THAT'S NEXT WEEK! FINALLY! INFO ANNOUNCEMENT is to
be posted on the home page.

Ever heard of an Earthworm Day? Administrators of Worm Digest, how about creating one?

I keep looking for the new page but have not seen one yet:dry:
How about changing the home page "Season's Greetings"?

Hey RedHen and everyone out there in Worm Wrangling Land!

Our Webmaster got delayed for the new pictures and resource page. Our apologies! We need to put a Valentine's on the Season's Greetings! Maybe we should just put a shamrock over it!!!

He has assured us at Worm Digest we will be pleasantly surprised when we least expect it!

He even had the forebearance to quote the Bible to us: There is a time to grow and a time to reap, a time to shore up and a time to let flow, a time to wring our hands and a time to clap, etc etc...

Thank God the Olympics are on!

Maureen

Hey Everybody,

I just checked out the new resource forum pages. Over 200 views in the last 6 days, get your info on there!!! It's great because it has specific areas to put in your type of resource. Let's get this garden started!
